BACKGROUND PROFILE OF OM HOLDINGS LIMITED

OMH which was listed on the ASX in March 1998 has its foundations in metals trading – incorporating the sourcing and distribution of manganese ore products and subsequently in processing ores into ferro-manganese intermediate products. The OMH Group now operates commercial mining operations – leading to a fully integrated operation covering Australia, China and Singapore.

Through its wholly owned subsidiary, OM (Manganese) Ltd (“OMM”), OMH controls 100% of the Bootu Creek Manganese Mine (“Bootu Creek”) located 110 km north of Tennant Creek in the Northern Territory.

Bootu Creek is designed to produce at an annual rate of 550,000 tonnes of manganese ore. Bootu Creek has further exploration potential given that its tenement holdings extend over 1,750 km².

Bootu Creek’s manganese product is exclusively marketed by the OMH Group’s own trading division with a proportion of the product consumed by the OMH Group’s wholly-owned Qinzhou smelter located in south west China.

Through its Singapore based commodity trading activities, OMH has established itself as a significant manganese supplier to the Chinese market. Product from Bootu Creek has strengthened OMH’s position in this market.

OMH also holds a 13% shareholding in Territory Resources Ltd, a company presently operating the Frances Creek iron ore project in the Northern Territory.
