ASX Market Announcements
ASX Limited
4th Floor
20 Bridge Street
SYDNEY NSW 2000

Dear Sir/Madam

POTENTIAL RAW MATERIAL SUPPLY CHAIN DISRUPTION

Following the recent global health emergency declaration by the World Health Organization on the outbreak of the Novel Coronavirus (“**Virus**”), the Board of OM Holdings Limited (ASX:OMH) (the “**Company**”) wishes to advise that there is a potential risk of disruption to the supply chain of raw materials to the Company’s flagship smelter complex in Sarawak, Malaysia (the “**Plant**”).

Regional authorities in China have taken precautionary measures to contain the spread of the Virus, consequently interrupting domestic trucking services. Such restrictions, if sustained, could potentially result in the disruption of Chinese sourced raw material supplies to the Plant.

Contingency plans for the short term have been formulated to mitigate the potential raw material disruption, and the Company has decided as an interim precautionary measure to idle 2 out of its 10 ferrosilicon furnaces until further notice, placing them on routine maintenance as the situation is being monitored. The remaining furnaces are continuing to operate relying upon existing raw material inventory at the Plant.

The Company will continue to assess the situation closely and will provide further updates on any raw material supply chain disruption and the impact to the Plant in due course.

Yours faithfully

OM HOLDINGS LIMITED

Heng Siow Kwee/Julie Wolseley
Joint Company Secretary
