The fungibility mechanism is set out below:

- (i) Upon the Secondary Listing, shareholders holding OMH shares on the ASX can request to have their shares removed to the Main Market of Bursa Securities for trading and vice versa.
- (ii) OMH’s existing shareholders who wish to trade their shares on Bursa Securities may commence their request to remove their shares to the Malaysian register. As the request will take at least 3 market days to complete, shareholders who wish to commence trading

of their shares on the Listing Date are advised to submit their requests no later than 10.00 a.m. (Sydney Time) on Wednesday, 16 June 2021.

- (iii) These removal requests are subject to the fulfilment of the conditions and criteria of both the ASX and Bursa Securities, OMH's Share Registrars, as well as the depository regulations of both jurisdictions.

To facilitate liquidity and trading activity of OMH shares on the Main Market of Bursa Securities upon the Secondary Listing, **Executive Chairman and Chief Executive Officer of OMH, Mr. Low Ngee Tong**, has undertaken that he will, and will procure other notable shareholders of OMH, to transfer an aggregate of at least 10 million OMH shares from the ASX to Bursa Securities, representing 1.35% of the total number of issued OMH shares, to be made available for trading on the Listing Date.

Mr. Low said: "Through the Secondary Listing, we aim to broaden our investor reach and widen our investor base, and potentially increase the liquidity of our shares through separate trading platforms. It will enable us to tap into additional platforms for future fundraising and provide us with the flexibility to access different equity markets to raise funds. We may potentially undertake fundraising from the Malaysian capital markets after the Secondary Listing and channel the funds towards expanding our Sarawak Plant."

The OMH Group's manganese ore mining operations are based in the Bootu Creek Mine, Northern Territory of Australia. OMH owns a 13% effective stake in the Tshipi Borwa manganese mine in South Africa.
